Ndumiso Onke Fanti

SKILLS

A proficient computer user(Windows OS, Unix/Linux based OS).
A competent computer programmer. I am proficient in Java, Python, Golang, TypeScript, C, C++, MATLAB and bash.
I have a solid understanding of the fundamentals of web development in things like CSS, JavaScript and HTML.
I am familiar with the Angular framework, ionic framework and springboot framework.
I have a solid understanding of Docker.

EXPERIENCE

Bothma Signs, Gauteng – *Installer*

November 2017 – March 2018

- My daily activity was to install signs in roads and in retail stores all over south africa

Butterfly, Johannesburg – *Loader*

2018 – July 2019

- My daily activity was to offload from containers and record stationery from Asian(mostly china)

Standard Bank, Johannesburg – *Learner*

September 2019 – Present

- I'm studying to get java certified funded by Standard Bank at a private vendor providing the training. This is accompanied by other tech related lessons like mobile development. After the Learnership I must write an OCA by oracle. Throughout the period I will also be working in the bank to gain work experience.

EDUCATION

High School : Bhukulani Secondary – *Matric*

2006 – 2010, Soweto, Johannesburg

I studied my high school in Soweto from 2006 to 2010, while I was also a tutor within the school and privately tutoring mathematics and physical sciences. My high school subjects were Isixhosa HL, English FAL, Geography, Mathematics, Life Sciences, Life Orientation and wrote the optional extra paper called Mathematics Paper 3

AWARDS

1. Top 10 performing matriculants at Bhukulani and within top 100 in Soweto.
2. 2nd Highest mark in Mathematics and Physical Sciences

I went to the University of Cape Town to pursue my studies in Mathematical Statistics and Computer science where I studied for 3 years but unfortunately did not graduate due to financial constraints.
